Elementary RSP and NSH Teacher Favorites in WCCUSD

Websites for Students

<http://www.abcya.com/> ABCya.com provides an award winning collection of free, online educational games for elementary students, searchable by grade and topic.

<http://www.starfall.com/> Starfall is a popular and useful website for beginning literacy skills practice.

El Cerrito Wire <http://elcerritowire.com/learn/index.htm> The El Cerrito Wire community website was founded by WCCUSD elementary teacher Betty Buginas. On this K-6 Resources page Betty maintains an excellent collection of links to online educational games organized by curriculum standards.

<http://www.ed1stop.com> Ed1Stop, hosted by the Contra Costa County Office of Education, offers useful content for WCCUSD teachers, students, and parents. Free access to subscription websites such as Learn360 videos and BrainPop Jr. are popular. Contact WCCUSD's Laurie Roberts at lroberts@wccusd.net for a login for yourself, and your students and their families. Pre K-12.

<http://www.ictgames.com> ict games offers free online Math and Literacy activities for pre-K and early elementary students. Good for both whole group activities using the projector, or for individual or small groups of students at computers.

<http://www.eduplace.com/> Education Place, by the Houghton Mifflin Harcourt company, offers PreK-6 resources for teachers, students, and families to support instruction. Search by grade and subject to find contents students can use on the computer, such as the fun [Wacky Web Tales](#) where students enter details to generate a humorous narratives.

<https://www.bookshare.org> Bookshare.org is the world's largest accessible library, with thousands of books, textbooks, and periodicals available, with text-to-speech technology to read texts aloud to students. Sponsored by the U.S. Department of Education, Office of Special Education, Bookshare.org is free for students with an IEP and reading difficulties. Please contact Tom Buckey, WCCUSD Assistive Technology Specialist, for access or training, at tbuckey@wccusd.net.

<https://bubbl.us/> Bubbl.us is a quick and easy mind mapping/graphic organizer program. Registration is not required. Click "Print" or "Export" to save a copy of the graphic organizer.

<http://ca.pbslearningmedia.org/> PBS Learning Media California offers a searchable database of videos, lesson plans, and PBS Kids online computer games. Pre K-12.

<http://www.kqed.org/> At KQED watch videos about Science or other educational content and discuss with your students. Pre K-12.

<http://kids.nationalgeographic.com> At the National Geographic Kids newly redesigned website, students can view educational videos and participate in online learning activities. Much of the content is animal and nature oriented. Pre K-5.

<https://www.youtube.com> YouTube hosts a multitude of educational videos. Pre K-12.

Websites for Teachers

<http://www.softschools.com> Soft Schools provides mostly elementary math worksheets, though there are some online activities for students in other subject areas, as well.

<http://www.crayola.com/> Crayola hosts a website with lesson plans and resources for use with students Pre K-12.

<http://www.galacticphonics.com> Galactic Phonics offers printable phonics worksheets and other resources.

<http://easycbm.com> At easyCBM, designed by researchers at the University of Oregon, teachers can access Reading and Math assessments based on standards or curriculum-based measures called “CBM’s.” Designed to support RTI interventions, the website is useful for students K-12. Assessments can be printed or completed online. The “Lite Edition” is free and for use by individual teachers, with the regular version designed for school districts. Comes with an online [manual](#).

<http://www.education.com> Education.com is a website designed for parents, but teachers may find useful lesson ideas there, as well. Has great listing of science fair projects and many preK-12 lesson ideas.

SchoolExpress

<http://schoolexpress.com/> At School Express one can access a plethora of worksheets for the elementary student.

<https://www.graphite.org> At Graphite one can search for top rated student websites. PreK-12.
