

WCCUSD's Single Plan for Student Achievement (SPSA)

The Single Plan for Student Achievement serves as a vehicle for communicating information about a school's vision, initiatives to improve academic achievement, as well as a description of how supplemental categorical funds from the Consolidated Application are used to support these efforts. School plans describe legally-mandated requirements and comprehensive programmatic information that includes:

- alignment to WCCUSD's Local Control Accountability Plan (LCAP);
- a description of how parents are involved in the school program;
- data analysis and assessment of student learning;
- an action plan for improving student achievement and closing the achievement gap;
- a plan to improve attendance; and
- a plan to promote a safe, welcoming and disciplined learning environment.
- the SPSA is a living document which SSCs may update to meet immediate school and program needs. As a consequence, the actual copy available at the school site may include revisions made after School Board approval.
