### Course Goals:

This class is designed to help incoming freshmen to identify their interests and goals, discover possible career paths, and develop the academic and life skills necessary to achieve their goals. It will also encourage student success measurable through a personal and academic lens. The ultimate goal is to create a 10-year career and academic plan that will serve as a guideline for students to follow.

### Course Expectations:

Students are expected to:

- Complete all coursework: I don't assign it unless I feel like you need to know it.
- Come to class prepared to participate and learn.
- Respect each other, me, and **yourselves**.
- Follow all classroom rules and procedures.

### Required Materials:

- **Pencils or Pens:** We will be using them for something every day.
- **Homework:** Be sure to bring whatever required task on the day that it is due.

- I will accept late work up until the grading period that the work was assigned has ended.

### Plagiarism and Cheating:

Plagiarism is defined as "the practice of taking someone else's work or ideas and passing them off as one's own." I take plagiarism and cheating very seriously and any student caught copying someone else's work or cheating will receive a zero on the assignment and is subject to other consequences.
