I realize that my participation in these programs is a privilege and any failure to abide by the foregoing guidelines will result in my dismissal from a program or team at my respective site:

- **Maintain a minimum of at least a 2.0 grade point average with no more than one “F” grade per a semester grading period.**
- **Ensure that all required emergency information is on file prior to any participation or involvement: medical release form, parent permission and consent for treatment form, insurance information.**

Any student participating in extra curricular activities or on athletic teams will forfeit their privilege to participate if he or she exceeds more than 5 days of suspension during a semester.**

**AGREEMENT FOR STUDENT-ATHLETE & PARENT/GUARDIAN
USE OF STERIODS**

As a condition of membership in the California Interscholastic Federation (CIF), the Governing Board of the West Contra Costa Unified School District has adopted Board Policy 5131.63 prohibiting the use and abuse of androgenic/anabolic steroids. CIF Bylaw 524 requires that all participating students and their parents/guardians sign this agreement.

By signing below, we agree that the student shall not use androgenic/anabolic steroids without the written prescription of a fully licensed physician, as recognized by the American Medical Association, to treat a medical condition.

We recognize that under CIF Bylaw 200.D the student may be subject to penalties, including ineligibility for any CIF competition, if the student or his/her parent guardian provides false or fraudulent information to the CIF.

We understand that the student's violation of the district's policy regarding steroids may result in discipline against him/her, including, but not limited to, restriction from athletics, suspension, or expulsion.

CONCUSSION INFORMATION SHEET

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussions may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

CONCUSSION INFORMATION SHEET

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after the concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for the student-athlete's safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The new CIF Bylaws 313 now requires implementation of long and well-established return to play concussion guidelines that have been recommended for several years:

“A student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time and for the remainder of the day.”

and

“A student athlete who has been removed may not return to play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussion and received written clearance to return to play from the health care provider.”

You should also inform your child's coach if you think that your child may have a concussion. Remember it is better to miss one game than miss the whole season. And when in doubt, the athlete sits out.
