March 3, 2021

Dear Ellerhorst Families,

We are excited to inform you that we are rolling out a new tool called Securly Classroom to help teachers monitor and guide student engagement during Distance Learning, and for when students use their Chromebooks when they return to school. It only works on the District-issued Chromebooks, and not on personal computers.

Securly Classroom is a cloud-based classroom management tool for teachers to guide, monitor, and communicate with students during class. It is designed to remove distractions and keep kids focused on learning. You may read more about Securly Classroom here at <https://www.securly.com/classroom/>.

As a school, it will only be used during the live (synchronous) classroom sessions with your teacher, unless otherwise notified by your teacher. Each student can view notifications on their Chromebook.

For specifics on how this tool is being used in your child's classroom, please speak directly with your student's teacher. You can also reach out to me if you have any questions or concerns.

We appreciate your partnership and patience over the coming weeks as our teachers are learning this new tool.

Sincerely,

Greg Whaling
Principal
