Cash Flow

- ▶ The 2013–14 State cash deferrals have improved with the adoption of the State budget
- ▶ Inter–fund cash borrowing should not be required

Local Control Funding Formula (LCFF)

- ▶ Previously restricted dollars become unrestricted – expenses follow unless the District cuts the program
- ▶ Landmark change in funding for California Schools

LCFF

- ▶ State Categorical Programs are rolled in and the separate revenue is eliminated
 - EIA
 - Career and Technical Grants for Secondary
 - Partnership Academies
 - All Tier III Programs
 - There is still a question on how Adult Ed is dealt with
- ▶ Some are not
 - Special Education
 - After School Programs

LCFF

- ▶ Since the revenue component is not the only major change...
- ▶ California Department of Education must
 - Create the new allocation model
 - Verify the underlying data
 - English Language Learners
 - Free and Reduced Lunch
- ▶ Provide the new resource tracking for each component – new account codes

LCFF

- ▶ Is not included in June budget adoption
- ▶ A budget revision within 45 days
 - July 24, 2013 Board Meeting
- ▶ Funding is supposed to increase over 8 years toward full implementation

How Much will LCFF help?

- ▶ District Unrestricted Operational Deficit 2013–14
 - \$5.7 million
- ▶ This is under the current “OLD” Revenue Limit Funding Model
- ▶ Under that model the District is using Special Reserve funding and Fund Balance to pay for that deficit
- ▶ The amount the District will receive in additional funding is not yet known

How Much will LCFF help?

- ▶ How will the LCFF be split?
 - Supplemental and Concentration Grant dollars will be restricted
- ▶ Previously restricted programs such as EIA, Partnership Academies will need to be supported with the new dollars
- ▶ K–3 Class Size Reduction will need to be re-implemented to 24:1 by 2021–2022

Local Control Accountability Program

- ▶ “LCAP”
- ▶ The accountability component
 - Outline how the supplemental and concentration grant revenues would benefit the targeted population – This will be a written plan submitted with the budget
 - Site level accountability for budget and outcomes
 - Improvement in those target populations will be expected
 - Intervention system for those school districts that are not showing improvement
 - Options available for the Superintendent of Public Instruction and the State Board of Education to intervene

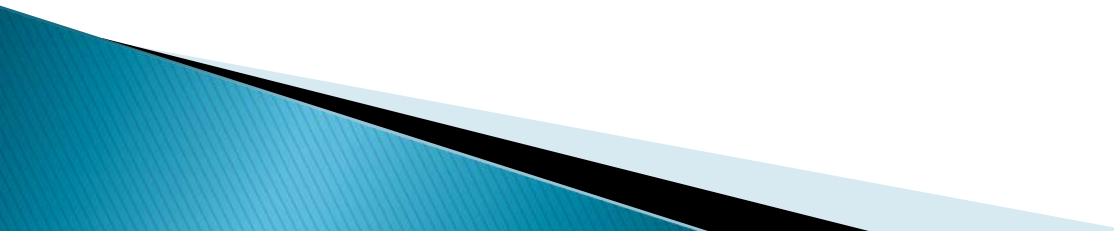

Multi Year Planning Concerns

- ▶ Retiree Benefits continue to take a large portion of the budget, and the District is absorbing the increased cost of health plans for the majority of retirees
 - The District is operating on a “Pay as you go” basis \$19 million per year and growing
- ▶ Health Care Reform
 - Study is underway to determine district’s position

Multi Year Planning Concerns

- ▶ **Common Core Standards**
 - New Texts and Technology
 - Implementation and Professional Development
 - ▶ **Summer School**
 - Staff is working on how grants can provide funding – how do we sustain this long-term?
 - ▶ **Class Sizes at Secondary and Elementary Levels**
 - ▶ **Support and Staffing**
 - Sophisticated and improved buildings, technology and security systems are provided
 - Support staff remains at low levels, making it difficult to maintain these assets
- 

Budget Adoption

- ▶ Based upon current assumptions we have maintained a 3% reserve
 - ▶ A Revision will be provided at the July 24 meeting to account for the passage of new State Budget with LCFF
