#### West Contra Costa Unified School District

#### 2024-25 Second Interim Report and Multiyear Fiscal Projection

Data as of January 31, 2025 Presented March 26, 2025

Interim budget reports provide a picture of a district's financial condition during the fiscal year. The Second Interim Report is a snapshot of the district's revenue and expenditure forecasts for the current fiscal year and a projection of the two subsequent fiscal years. It is a time to adjust the budget based on the California State Proposed Budget, commonly referred to as the "January Budget Update", and other factors that impact revenue and expenditures, as shown in **Figure 1**. The Governing Board of a school district certifies the district's financial condition to the County Office of Education through these reports. The Second Interim Report includes financial data from July 1 through January 31 each fiscal year and projects financial activity through June 30. It must be approved and submitted to the County Office of Education no later than March 15.

The major K-12 funding provisions included in the 2024-25 state budget:

- The funded COLA for the Local Control Funding Formula (LCFF), special education, and several other categorical programs outside the LCFF remains at 1.07%. With 2025-26 decreasing by 0.5% to 2.43% COLA.
- While the Governor's budget proposal avoids cuts to ongoing education programs and is able to fund the projected COLA with ongoing funds, the financial impact of devastating wildfires in Southern California, absenteeism due to immigration concerns for families, and potential federal policy and funding changes with a new administration pose a wide range of economic uncertainties for the current and future year budgets.
- Due to uncertainties noted above, the 2025-26 Governor's Budget proposes to appropriate the 2024-25 Proposition 98 minimum guarantee at \$117.6, which is \$1.6 billion lower than the formula requires. By reducing the amount appropriated from \$119.2 billion to \$117.6 billion, this mitigates the risk of appropriating more resources than are ultimately available when the final calculations for 2024-25 are made after the end of the fiscal year. In the event projected funds come to fruition, LEAs would receive the true-up as a one-time allocation.
- The Public School System Stabilization Account (PSSSA) balance of \$8.4 billion was depleted in 2023-24 in order to pay a deferral from 2022-23 (\$2.6B) and cover expenditures in 2023-24 (\$5.8B). The Governor's Budget proposes to increase the deposit by \$100 million for a total of \$1.2 billion in 2024-25, and an additional \$376 million in 2025-26 for a total of just under \$1.6 billion.
- Several provisions to allow students make up lost instructional time, thereby offsetting student absences and mitigating learning loss. These provisions take effect July 1, 2025.

#### Planning Factors for 2024-25 and MYPs

The Contra Costa County Office of Education (CCCOE) provides guidance on factors that local educational agencies (LEAs), including WCCUSD, should consider using when developing their budget. These factors come from many sources, including the Department of Finance (DOF), the California Department of Education (CDE), the State Lottery, the California Public Employees Retirement System (CalPERS), and the California State Teachers Retirement System (CalSTRS).

#### THE EDUCATION BUDGET

The budget is created to provide a financial framework for the school district's program plans for the current year, as well as future years. It includes an estimate of the money the district will receive (revenues) and its plan for spending those funds (expenditures). The budget was developed within the constraints established by the state and federal governments. The state government in California largely controls school district

revenues, while districts determine expenditures within allowable parameters. Each year, the Legislature and Governor decide how much funding will go to public education and how those funds will be allocated. Decisions about how the funds are spent largely rest with local school districts, which face many constraints as the districts decide how to prioritize those funds.

In California, on average, the state provides about 57% of the operating funding for schools from its General Fund, including lottery funds which generally are less than 2% of the total. In addition, property taxes contribute 26%, and federal funds provide 12%. School districts have one other source of funds, commonly referred to as "local miscellaneous revenues". These can come from various sources, such as lease income, donations, food service sales, and parcel taxes. Statewide, these average about 6% of revenues, but that varies dramatically from district to district. School districts may also receive additional monies from local bonds that are earmarked for facilities. The West Contra Costa Unified School District community has consistently invested in school bonds over the last 20+ years to improve teaching and learning conditions for students and staff. Most of the funds that school districts receive are to be used at their discretion and are referred to as Unrestricted Funds. About one-third of district revenues are designated for specific purposes and programs, as indicated by the state or federal government and are referred to as Restricted Funds. In 2024-25, California has more than a dozen restricted programs, such as the Expanded Learning Opportunity Program and California Community Schools Partnership Program.

Within specific parameters, each district makes its own choices about how to spend the funds it receives. The local school board is responsible for approving the district budget and the expenditure decisions proposed by district staff. Although districts are ultimately responsible for the cost of the salaries and benefits they pay employees, districts are required to engage in a collective bargaining process with employee labor unions. Union contracts can also affect many other district expenditures, including working conditions, class sizes, and the number of workdays. Districts may also decide which voluntary state and federal programs they will operate for students, including K–3 Class Size Reduction. If they choose not to participate, they lose the funding for that specific program.

Districts are also required by law to contribute resources to some programs, such as Special Education and Routine Restricted Maintenance. Districts choose how much to invest in the construction, maintenance, and upgrading of their facilities. However, state law controls what buildings may be used as classrooms, requires features such as accessibility for the disabled, and specifies that school district employees must perform some maintenance services. In addition, state law prohibits districts from using money raised through local bonds for anything but the facilities promised as part of the bond measure.

There are many challenges to building a school district budget compared to a budget for a private company. Local school districts have very few opportunities to raise additional funds, no matter their needs. The Local Control Funding Formula (LCFF) calculates the

amount of revenue districts will receive each school year, but state leaders only finalize the funding factors once they pass the state budget. State leaders are legally required to pass the state budget by the end of June, but in some years, this has been delayed to as late as September. When the state faces a difficult or uncertain budget, school districts must prepare for the worst and hope for the best. They must adopt their preliminary budgets by June 30, regardless of state action or inaction. They are also required by law to provide notice by March 15 to most employees, particularly teachers, if layoffs are possible. Yet the district may not know the exact amount of revenue they will be able to spend until months later. This is why teachers sometimes receive layoff notices (or "pink slips") but ultimately keep their jobs. Most school district expenditures go to employee salaries and benefits-more than 80% in most districts. A district's response to budget cuts or even flat funding almost always includes eliminating personnel. For about half the school districts in the state, a major concern is declining enrollment. Because a large portion of education funding is based on the number of students attending a district, revenues decrease along with a decline in the number of students enrolled. However, the overall costs of a school do not proportionally decrease with the loss of students. For example, a district typically has to lose 20 or 30 students before it cuts one teaching position. However, if all of those students do not leave the same school or grade level, the district will lose the revenue for those students and be unable to reduce costs for teaching and support. Thus, districts with declining enrollment, such as WCCUSD, often face a particularly challenging budget squeeze.

#### ENROLLMENT AND ATTENDANCE TRENDS

In California, school districts are not funded on enrollment but on "Average Daily Attendance", commonly referred to as ADA. ADA is calculated by dividing the number of days students attend school by the number of school days in the year. Many school districts throughout California have experienced a decline in student enrollment, and WCCUSD is no different. From 2013-14, WCCUSD experienced a slow, steady decline in enrollment with a short respite in 2019-20. However, the COVID-19 pandemic accelerated the decline as many families moved out of the region or state in search of a lower cost of living. Between 2019-20 and 2023-24, the district lost 9.5% of its student population. The district forecasts a decrease in enrollment for 2024-25. Based on the prior 10 years of data, the district is projecting an ongoing decrease in enrollment of 1% per year. Compounding this issue, the rate of student attendance has decreased state-wide, including WCCUSD. Before the COVID-19 pandemic, the district averaged approximately 96% enrollment to attendance rate, however, current trends project an enrollment to attendance rate of 92%. This translates into a reality where the district must provide programs for a projected number of students, but receives less per student due to lower attendance rates.

#### **GENERAL FUND REVENUES**

Public education finance differs from traditional business finance because the school district does not have easy access to invest in growth opportunities, such as creating a new product, purchasing another company, or borrowing. School district income is largely fixed by revenue drivers set by the State and Federal governments. The vast majority of the day-to-day operations of California public school districts are accounted for in the General Fund (Fund 01). **Figure 2** below shows the change in unrestricted and combined revenue by income source.

**Figure 3** shows the decrease in LCFF funding from 2023-24 to 2024-25. The state reduced the COLA to 1.07% for 2024-25. On the surface, one might assume that WCCUSD received the whole 1.07%, but **Figure 3** shows that WCCUSD received an effective decrease of 2.10%, year-over-year. This occurs partially because the Targeted Instructional Improvement Grant (TIIG) does not receive a COLA. However, the biggest factor preventing WCCUSD from receiving an increase in revenue from this COLA is the loss of income due to declining enrollment and reduced attendance rates, discussed in the Enrollment Trends section of this report.

Note that 67.2% (or \$337.7 million) of the District's General Fund revenue comes from LCFF Sources, which can be used for any purpose designated by the Board of Education. These funds typically support the base operations of the school district, including general education and special education costs that exceed funding. They also include expenditures outlined in the Local Control and Accountability Plan (LCAP) designated to improve services or outcomes for students who qualify as low-socio-economic, English language learners, or foster youth.

As explained previously, Federal funds may only be used for the specific purpose as designated by the government. For example, Individuals with Disabilities Education Act (IDEA) funds may only be spent on special education students. Similarly, Title I, II, III, and Every Student Succeeds Act (ESSA) funds may only be spent as outlined in the program funding guide. Federal Funds are 7.3% of the district's revenues and include (restricted) dollars that cannot be recognized in the district's financial statements until the funds are first expended.

Other State Funds are 18.8% of revenues and include both restricted and unrestricted fund sources such as special education (restricted) and lottery (both unrestricted and restricted components).

Other Local Revenue sources include restricted funds from parcel taxes and unrestricted funds for facilities (rental) use of district property which account for 6.6% of revenues.

#### GENERAL FUND EXPENDITURES

Employee salary and benefits are the drivers of budgetary priorities. Certificated and classified staff play an important role in continuing the district's success. All West Contra Costa Unified employees help to ensure a safe and positive learning environment in the district. Through the allocation formulas that WCCUSD has established in the staffing matrix, the district ensures that proper staffing will be allocated to help meet the goals and objectives of the Board. The district allocates employees using a staffing matrix with full-time equivalents (FTEs) for all school site positions and many centrally managed positions. Below Figure 5: General Fund Expenditures by Major Object shows how much the district spends for certificated labor (staff members with teaching, service, or administrative credentials issued by the California Commission on Teacher Credentialing). These are classroom teachers, counselors, nurses, psychologists, speech and language pathologists (SLPs), instructional coaches, vice principals, and principals. These costs represent 33.8% of total combined general fund expenditures. Classified labor costs are for all employees conducting work that does not require a credential from the State. These include all support services staff, instructional assistants (in the classroom under teacher supervision), grounds, custodial, office

clerical, campus safety specialists, maintenance staff, elementary yard duty supervisors, school community outreach workers, warehouse workers, etc. These costs represent 15.3% of total combined general fund expenditures. Benefits costs include all statutory costs like workers' compensation, retirement pension programs (STRS and PERS), and health and welfare benefits. These costs represent 26.1% of total combined general fund expenditures. **Figure 6** shows that salary and benefits costs are 75.2% of total combined general fund expenditures. That leaves 24.8% to pay for everything else that is necessary to run the district, such as utilities, textbooks, supplies, debt service on two office buildings, and to pay for outside services (predominantly for special education students) that cannot be provided for internally, or for which the district is unsuccessful in hiring internally. These expenditures can be found in the Books and Supplies (3.8%) and Services and Other Operating Expenditures (22.8%). Finally, small amounts are spent on Capital Expenditures and Other Outgo (Debt Service and transfers of parcel taxes to Charter Schools).

On the surface, it may appear as though the district spends less on labor from the total general fund than similar districts, this occurs because to recognize federal revenues, the district must recognize a matching expense. This inflates the purported expenses in the Books and Supplies and the Services and Other Operating Expenditures categories until actual expenditure plans are put in place for the federal revenues. The same occurs in the Books and Supplies categories for school site budgets, they are "held" in this pot until the school site's itemized budget is input. These can be factors for changes between Adopted Budget, First Interim, and projections throughout the year.

#### OTHER FUNDS

In addition to the General Fund (Fund 01), the district is required to maintain other funds when conducting specific programs or activities, and may also use additional funds at their discretion. These other funds are described below.

#### SPECIAL REVENUE FUNDS

Special Revenue funds are established to account for the proceeds from specific revenue sources that are restricted to the financing of particular activities that compose the majority of the activities associated with these funds.

The Special Revenue Funds include Adult Education (Fund 11), Child Development (Fund 12), and the Cafeteria Fund (Fund 13). The district also maintains the Special Reserve for Other Than Capital Outlay Projects (Fund 17) which is maintained at the direction of the board of education to provide a necessary buffer to provide time for better decision-making in the event of an economic calamity.

#### CAPITAL PROJECT FUNDS

Capital Project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities and other capital projects.

The Capital Project Funds include the Building Fund (Fund 21), Capital Facilities Fund (Fund 25), County School Facilities Fund 35), and the Special Reserve Fund for Capital Outlay Projects (Fund 40).

#### **DEBT SERVICE FUNDS**

Debt Service funds are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt.

The Debt Service Funds include the Bond Interest and Redemption Fund (Fund 51) and Debt Service for Blended Component Units (Fund 52), these funds are used to process activities associated with the districts' General Obligation Bonds and Certificates of Participation.

#### INTERNAL SERVICE FUNDS

Internal Service funds are created principally to render services to other organizational units of the LEA.

The Internal Service funds include the Self-Insurance Fund (Fund 67) where the district accounts for Property and Liability Insurance, and Workers' Compensation Insurance.

#### **ENDING FUND BALANCE**

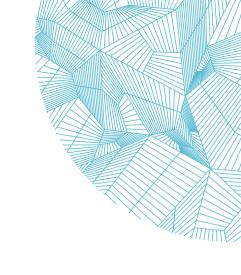

The district's beginning fund balance is the accumulation of results from prior carryover and current operations. The ending fund balance is the result of the beginning fund balance plus or minus the results from operations in the current year. The State's minimum reserve requirement for WCCUSD is 3%. The general reserve in West Contra Costa Unified is a safety net for budget issues that may arise and helps to manage cash flow during the year. The district ended the 2023-24 fiscal year with \$126,297,529 in the combined general fund, plus \$37,630,016 in Fund 17. As reflected in **Figure 6**, the projected ending fund balance is decreasing over the next 3 years, requiring transfers-in from Fund 17 to cover the district's ongoing structural deficit.

#### LOOKING FORWARD

The District is navigating a critical fiscal landscape, relying heavily upon its reserves, principally from Fund 17, to support operations. The District must be diligent in its efforts to implement the Plan as the District continues to confront a significant structural deficit. The Second Interim projections include \$7.3 million in cuts made for the 2024-25 school year, and an additional \$6.4 million in cuts for 2026-27. Since 2017-18, the District has made material investments in total compensation in order to offer competitive salaries (an increase of over 32%). While crucial in attracting and retaining highly qualified staff, the District faces ongoing challenges that will require careful planning moving forward. The District is committed to ensuring long-term fiscal health while maintaining the quality of education and services the community deserves.

### Second Interim 2024-25 Projected Year Totals Indirect Cost Rate Worksheet

07 61796 0000000 Form ICR F827YJBDBJ(2024-25)

### Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occupied by general administration.

### A. Salaries and Benefits - Other General Administration and Centralized Data Processing

 Salaries and benefits paid through payroll (Funds 01, 09, and 62, objects 1000-3999 except 3701-3702) (Functions 7200-7700, goals 0000 and 9000)

18,572,101.00

- 2. Contracted general administrative positions not paid through payroll
  - a. Enter the costs, if any, of general administrative positions performing services ON SITE but paid through a contract, rather than through payroll, in functions 7200-7700, goals 0000 and 9000, Object 5800.
  - b. If an amount is entered on Line A2a, provide the title, duties, and approximate FTE of each general administrative position paid through a contract. Retain supporting documentation in case of audit.

#### Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

### A. Normal Separation Costs (optional)

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

### B. Abnormal or Mass Separation Costs (required)

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates

the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based. Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A. A. Indirect costs incurred in the current year (Part III, Line A8) 34,468,688.11 B. Carry-forward adjustment from prior year(s) 1. Carry-forward adjustment from the second prior year 9,184,146.97 2. Carry-forward adjustment amount deferred from prior year(s), if any 0.00 C. Carry-forward adjustment for under- or over-recovery in the current year 1. Under-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus (approved indirect cost rate (10.73%) times Part III, Line B19); zero if negative 0.00 2. Over-recovery: Part III, Line A8, plus carry-forward adjustment from prior years, minus the lesser of (approved indirect cost rate (10.73%) times Part III, Line B19) or (the highest rate used to recover costs from any program (10.75%) times Part III, Line B19); zero if positive (12,912,212.02) D. Preliminary carry-forward adjustment (Line C1 or C2) (12,912,212.02) E. Optional allocation of negative carry-forward adjustment over more than one year Where a negative carry-forward adjustment causes the proposed approved rate to fall below zero or would reduce the rate at which the LEA could recover indirect costs to such an extent that it would cause the LEA significant fiscal harm, the LEA may request that the carry-forward adjustment be allocated over more than one year. Where allocation of a negative carry-forward adjustment over more than one year does not resolve a negative rate, the CDE will work with the LEA on a case-by-case basis to establish an approved rate. Option 1. Preliminary proposed approved rate (Part III, Line D) if entire negative carry-forward adjustment is applied to the current year calculation: 4.09% Option 2. Preliminary proposed approved rate (Part III, Line D) if one-half of negative carry-forward adjustment (\$-6456106.01) is applied to the current year calculation and the remainder (\$-6456106.01) is deferred to one or more future years: 5.31% Option 3. Preliminary proposed approved rate (Part III, Line D) if one-third of negative carry-forward adjustment (\$-4304070.67) is applied to the current year calculation and the remainder (\$-8608141.35) is deferred to one or more future years: 5 72% LEA request for Option 1, Option 2, or Option 3 F. Carry-forward adjustment used in Part III, Line A9 (Line D minus amount deferred if Option 2 or Option 3 is selected) (12,912,212.02)

### 3C. Comparison of District ADA to Enrollment Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Projected P-2 ADA to enrollment ratio exceeds the standard in any of the current year or two subsequent fiscal years. Provide reasons why the projected ratio exceeds the district's historical average ratio by more than 0.5%.

Explanation:

(required if NOT met)

The prior fiscal years' ratio of ADA to Enrollment have increased by 1.3% and 1.2% respectively year over year to 91.8% in 23-24. Projecting future years at 0.2% increase is in line with our trend. The District will also be starting a Saturday School Credit Recovery program to recoup additional ADA to improve the ratio.

# 5C. Comparison of District Salaries and Benefits Ratio to the Standard

DATA ENTRY: Enter an explanation if the standard is not met.

1a. STANDARD NOT MET - Projected ratio of unrestricted salary and benefit costs to total unrestricted expenditures has changed by more than the standard in any of the current year or two subsequent fiscal years. Provide reasons why the change(s) exceed the standard and a description of the methods and assumptions used in projecting salaries and benefits.

### Explanation:

(required if NOT met)

For both 2025-26 and 2026-27, the Board of Education has approved a Fiscal Solvency Plan reduction list. Once reductions are categorized by object code, the "Not Met" reflected in both years will be resolved. Currently the MYP reflects these as a general reduction to expenditures, thus creating a ratio that is not in line with expectations.

### 7. CRITERION: Facilities Maintenance

STANDARD: Identify changes that have occurred since first interim projections in the projected contributions for facilities maintenance funding as required pursuant to Education Code Section 17070.75, or in how the district is providing adequately to preserve the functionality of its facilities for their normal life in accordance with Education Code sections 52060(d)(1) and 17002(d)(1).

Determining the District's Compliance with the Contribution Requirement for EC Section 17070.75 - Ongoing and Major Maintenance/Restricted Maintenance Account (OMMA/RMA) EC Section 17070.75 requires the district to deposit into the account a minimum amount equal to or greater than three percent of the total general fund expenditures and other financing uses for that fiscal year. Statute exclude the following resource codes from the total general fund expenditures calculation: 3212, 3213, 3214, 3216, 3218, 3219, 3225, 3226, 3227, 3228, 5316, 5632, 5633, 5634, 7027, and 7690. DATA ENTRY: Enter the Required Minimum Contribution if First Interim data does not exist. First Interim data that exist will be extracted; otherwise, enter First Interim data into lines 1, if applicable, and 2. All other data are extracted. Second Interim Contribution Projected Year Totals Required Minimum (Fund 01, Resource 8150, Contribution Objects 8900-8999) Status 15,057,784.00 Met OMMA/RMA Contribution 15,057,784.00 2. First Interim Contribution (information only) 14,557,784.00 (Form 01CSI, First Interim, Criterion 7, Line 1) If status is not met, enter an X in the box that best describes why the minimum required contribution was not made: Not applicable (district does not participate in the Leroy F. Greene School Facilities Act of 1998) Exempt (due to district's small size [EC Section 17070.75 (b)(2)(E)]) Other (explanation must be provided) Explanation: (required if NOT met and Other is marked)

### 8. CRITERION: Deficit Spending

STANDARD: Unrestricted deficit spending (total unrestricted expenditures and other financing uses is greater than total unrestricted revenues and other financing sources) as a percentage of total unrestricted expenditures and other financing uses, has not exceeded one-third of the district's available reserves¹ as a percentage of total expenditures and other financing uses² in any of the current fiscal year or two subsequent fiscal years.

'Av ailable reserves are the unrestricted amounts in the Stabilization Arrangements, Reserve for Economic Uncertainties, and Unassigned/Unappropriated accounts in the General Fund and the Special Reserve Fund for Other Than Capital Outlay Projects. Available reserves will be reduced by any negative ending balances in restricted resources in the General Fund.

A school district that is the Administrative Unit of a Special Education Local Plan Area (SELPA) may exclude from its expenditures the distribution of funds to its participating members.

## S8. Status of Labor Agreements

Analyze the status of all employee labor agreements. Identify new labor agreements that have been ratified since first interim projections, as well as new commitments provided as part of previously ratified multiyear agreements; and include all contracts, including all administrator contracts (and including all compensation). For new agreements, indicate the date of the required board meeting. Compare the increase in new commitments to the projected increase in ongoing revenues, and explain how these commitments will be funded in future fiscal years.

## If salary and benefit negotiations are not finalized, upon settlement with certificated or classified staff:

The school district must determine the cost of the settlement, including salaries, benefits, and any other agreements that change costs, and provide the county office of education (COE) with an analysis of the cost of the settlement and its impact on the operating budget.

The county superintendent shall review the analysis relative to the criteria and standards and may provide written comments to the president of the district governing board and superintendent.
