Health Center: Who We Are

Our mission is to provide high quality and youth-friendly health and wellness services to all students.

The Pinole Valley High Health and Wellness Center, was established in June of 2007 as a collaborative effort between the West Contra Costa Unified School District and the YMCA of the East Bay, a non-profit organization whose mission is to serve the community as a resource for healthy living, youth development and social responsibility. The mission and purpose of the Pinole Valley High School Health and Wellness Center is to provide high quality, youth-friendly, health and wellness services to all students. We do this through the engagement of various community partnerships which offer health services and resources to students.

“"The Pinole Valley Health Center has helped me in every way. When I need anything I know I can come here and be treated with respect. I think every school should have a Health Center. I feel safe here."" – Pinole Valley High School Student

Services Provided

Mental Health Services: Includes crisis intervention, grief counseling, stress management, and general counseling on relationship issues, violence in the community, eating disorders, alcohol and drug abuse, and anger management for individual and group counseling.

Medical Services: Includes the provision of physicals, sports exams, first aid, family planning, screening and treatment of sexually transmitted infections (STIs), immunizations, and referrals to outside physicians and hospitals.

Youth Advisory Board: The Health and Wellness Center Youth Advisory Board help to envision and develop various ways of promoting health resources to the school and outside community as well as provide valuable information about the opinions, needs, wants and attitudes around Health Center services.
