

COVID TRAVEL GUIDANCE

Do not travel internationally until you are fully vaccinated. If you are not fully vaccinated and must travel, follow CDC's international travel recommendations for unvaccinated people.

Fully vaccinated travelers are less likely to get and spread COVID-19. However, international travel poses additional risks, and even fully vaccinated travelers might be at increased risk for getting and possibly spreading some COVID-19 variants.

The COVID-19 situation, including the spread of new or concerning variants, differs from country to country. All travelers need to pay close attention to the conditions at their destination before traveling.

CDC will update these recommendations as more people get vaccinated, as rates of COVID-19 change, and as additional scientific evidence becomes available.

CORONAVIRUS DISEASE 2019 (COVID-19)

Domestic Travel RECOMMENDATIONS AND REQUIREMENTS	Not Vaccinated	Fully Vaccinated
	Get tested 1-3 days before travel	✓
Get tested 3-5 days after travel and self-quarantine for 7 days. Self-quarantine for 10 days if you don't get tested.	✓	
Self-monitor for symptoms	✓	✓
Wear a mask and take other precautions during travel	✓	✓

Recommendations For Unvaccinated People

After you travel (International & Domestic):

- Get tested with a viral test 3-5 days after travel AND stay home and self-quarantine for a full 7 days after travel.

COVID TRAVEL GUIDANCE

- Even if you test negative, stay home and self-quarantine for the full 7 days.
- If your test is positive, isolate yourself to protect others from getting infected.
- If you don't get tested, stay home and self-quarantine for 10 days after travel.
- Avoid being around people who are at increased risk for severe illness for 14 days, whether you get tested or not.
- Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
- Follow all state and local recommendations or requirements.

Recommendations For Fully Vaccinated People

After travel (International & Domestic):

- Get tested with a viral test 3-5 days after travel.
- Self-monitor for COVID-19 symptoms; isolate and get tested if you develop symptoms.
- Follow all state and local recommendations or requirements after travel.
