

FAQS FOR DISTANCE LEARNING

HOW WILL MY CHILD LEARN?

Each of your child's teachers will post daily lessons online. Each lesson will have instruction from the teacher and a way for students to practice what they have learned. Your child will also receive feedback from their teachers on each assignment! Students should expect to spend about 2-3 hours on schoolwork per day.

WHAT ABOUT FOCUSING?

Working from home is hard! Try these tips for better focus:

- Encourage your child to change out of their pajamas.
- Make a special place at home just for doing schoolwork.
- Set routine hours every day for schoolwork.
- Include breaks in your school hours, and try to take those breaks outside!

WHEN IS SCHOOLWORK DUE?

We understand that every family has different needs right now! With that in mind, assignments are posted daily but do not have a specific due date. Most teachers will be grading weekly, but work can always be turned in late.

DO THESE LESSONS WORK?

Distance learning has been used in education for years. While classes online cannot always replace classes in person, right now they are connecting students to information they would otherwise be unable to access at all. Student participation is key to distance learning!

WHAT ABOUT READING?

Reading is an important brain exercise, but it can be hard to know where to start. Try setting aside daily or weekly quiet time just for reading. Plus, our librarian, Ms. Gould, will host weekly office hours to help kids find books. You can catch her from 10-11 on Monday and 11-12 on Friday.

I HAVE MORE QUESTIONS!

We are here to answer them! Teachers will be holding office hours twice a week for students. The schedule is on the school website. On the website, you can also find emails for all teachers, Mr. Fleischman, and Ms. Narasaki. Check under the "Our School" and "Faculty and Staff" tabs.

**CRESPI STARS KNOW:
DISTANCE LEARNING IS IMPORTANT LEARNING.**
