

Paychecks

The Paychecks section displays information for the most recent pay periods in which you received pay. In the tools section, options are available for simulating your paycheck and viewing W-2 and W-4 data. For security purposes, year-to-date and last-paycheck earnings do not display initially. Click **Show Paycheck Amounts** to show the dollar amount; click **Hide Paycheck Amounts** to hide the amount.

The screenshot shows two states of the 'Paychecks' section. The top state shows the 'Show paycheck amounts' button. The bottom state shows the 'Hide paycheck amounts' button and the resulting display of earnings. A red arrow points from the 'Show paycheck amounts' button to the 'Hide paycheck amounts' button. A red box highlights the earnings information in the bottom state.
