Greetings Family! I trust you had a safe and restful three day weekend. We are excited to welcome our students back to school for another week of learning at Kennedy. A Message from our Site Coordinator for our Expanded Learning Program:

Welcome back to another school year! One with different energy and practices, but we are excited about the opportunities for the Expanded Learning Program (ELP) at Kennedy High.

I am the Site Coordinator for the Expanded Learning Program at Kennedy High School. I have been a part of WCCUSD since 2011 and look forward to continuing my work this upcoming school year. We will be supporting and coordinating all after-school program services, including tutoring and clubs.

At this time I am preparing for the programs for after school and need your help. Our goal this year with after-school is to support students, staff, and teachers during these unprecedented times. That means working as a school to provide strong quality programs where students feel safe, heard and a part of.

Below you'll find a list of programs that we anticipate will happen after school. There are still programs that we would like to provide but need a teacher to take it on.
