Executive Summary

The Single Plan for Student Achievement (SPSA) has traditionally served as a vehicle for communicating information about the school's vision, initiatives to improve academic achievement, as well as describe how supplemental categorical funds are used to support these efforts.

WCCUSD's new district Local Control Accountability Plan (LCAP) is designed to improve student achievement, support the whole child socially and emotionally, and involve stakeholders to ensure all WCCUSD students are college and career-ready, able to make life choices that have successful, productive outcomes.

Improve Student Achievement: Provide a clear, well-resourced and rigorous student achievement program that addresses the full range of student needs and results in all students being prepared for a successful life.

Support the Whole Child Socially and Emotionally: For students to achieve at high academic levels, schools, families, and communities must focus on the child's social, emotional, physical and behavioral health, as well as the acquisition of academic skills.

Involve All Stakeholders: Engage the community in a process that provides for open, transparent, and inclusive participation of community stakeholders in WCCUSD planning.

Ensure All WCCUSD Students Are College and Career-Ready: Students can demonstrate independence, build strong content knowledge, respond to the varying demands of audience, task, purpose, and discipline, comprehend as well as critique, value evidence, use technology and digital media strategically and capably, and understand other perspectives and cultures.

Through data metrics and analysis, the LCAP also addresses the State's Priority Areas: Student Achievement, Student Engagement, Other Critical Student Outcomes, School Climate, Parental Involvement, Basic Services, Implementation of Common Core State Standards, and Course Access.

We are transitioning our school's SPSA to becoming a true companion document to the district LCAP so that it focuses on programs, activities and actions which are designed to continually address and support the district LCAP goals.

As we go deeper into this work, we will continue to connect these two critical plans, driving the academic needle forward for WCCUSD students.

Please read on to learn about Kensington Elementary School's specific SPSA plan of action for the 2017-18 school year.

Theory of Action

Teaching and Learning:
IF we provide our students with experiential learning opportunities
THEN Our students will be able to become self-directed, independent learners
Areas of Focus:
Connect classroom learning to nature, art, music, environmental stewardship, human interactions, etc.
Continue our enrichment offerings to ensure opportunities for exploration, independent learning, study trips, etc.

Teaching and Learning:
IF all teachers implement sequentially aligned curricula and instructional practices (TCRWP and lesson study in math)
THEN All students will see growth in core academic skills
Areas of Focus:
Continue training for all teachers in implementation of TCRWP and lesson study in math
Provide opportunities for teachers to spend time in each other's classrooms to become familiar with the sequential and coherent nature of the work we are implementing

Student Culture and Climate:
IF we explicitly teach skills of self regulation (e.g. Toolbox) across our school community
THEN Students will be more available for academic instruction
Area of Focus:
Adopt a universal language and common practices that are communicated to all students and parents

Adult Learning and Collaboration:
IF we work collaboratively in grade-level and cross grade-level teams dedicated to lesson planning, analyzing student work, and building capacity of our teachers
THEN All teachers will provide instruction for all students using rigorous, relevant, and engaging common core-aligned lessons
Areas of Focus:
Promote a culture of learning, collaboration, and constant adaptation
Provide opportunities for collaborative work time dedicated to examination of student work and teacher practice

SPSA Stakeholder Involvement

The School Site Council (SSC) works effectively with its stakeholders to complete the variety of tasks involved in developing, implementing, and monitoring the effectiveness of the Single Plan for Student Achievement (SPSA).

The following critical compliance items are in place throughout WCCUSD:

- **Highly Qualified Teachers:** All teachers and paraprofessional involved in our academic programs will meet NCLB's highly qualified requirements. Our site coordinates with the WCCUSD Human Resources Department to ensure compliance with this item.
- **Strategies to attract and retain high quality teachers:** Our site acknowledges the importance of attracting and retaining high quality instructional staff. Our site coordinates with the WCCUSD Human Resources Department to develop programs and strategies to ensure high quality instruction staff want to come to and remain at our site.
- **Learning Center Collaborative Model:** Each WCCUSD school that runs a collaborative model provides a seamless approach to integrating personnel, resources, and teaching strategies to serve at-risk special and general education students. Special education teachers may work with unidentified students and regular education teachers may work with identified students (as long as they are qualified to meet the goals on the students' I.E.P.s).
- **Staff development,** selected strategies to implement or continue, and materials used are focused on meeting the needs of at-risk and general education students. This information is detailed in the SPSA. Any funds spent to support the model are also outlined in the SPSA. Finally, staff is consistently monitoring and evaluating the effectiveness of the collaborative model so that changes can be made where needed.
- **Early Learning:** Develop plans to assist preschool students through the transition from early childhood programs to local elementary school programs

- **Schoolwide Plans and Homeless Children and Youth:** In accordance with McKinney Vento Federal Homeless Assistance Law, the following actions are taken:

  - Flyers are posted in the front office stating the rights of homeless children and services available. These flyers are made readily available to homeless families.
  - Staff is trained before the start of each academic year on how to enroll and identify homeless students by the district's homeless liaison.
  - Teachers receive yearly training on how to identify warning signs which may indicate homelessness and sensitivity training on the special needs of homeless children and youth.
  - Parents without homes are included in outreach efforts by parent involvement outreach workers for inclusion in school site councils.
