School Site Council (SSC) Recommendations and Assurances

The school site council recommends this school plan and proposed expenditures to the district governing board for approval, and assures the board of the following:

1. The school site council is correctly constituted, and was formed in accordance with district governing board policy and state law.
2. The school site council reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the school plan requiring board approval.
3. The school site council sought and considered all recommendations from the following groups or committees before adopting this plan.

English Learner Advisory Committee

Other (*list*)
ILT

4. The school site council reviewed the content requirements for school plans of programs included in this Single Plan for Student Achievement and believes all such content requirements have been met, including those found in district governing board policies and in the Local Improvement Plan.
5. This school plan is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
6. This school plan was adopted by the school site council on: **4/26/17**.
7. The School Site Council will monitor the implementation and effectiveness of strategies in the plan at least twice during the **2017 - 2018** school year, using the WCCUSD monitoring process.

Executive Summary

The Single Plan for Student Achievement (SPSA) has traditionally served as a vehicle for communicating information about the school's vision, initiatives to improve academic achievement, as well as describe how supplemental categorical funds are used to support these efforts.

WCCUSD's new district Local Control Accountability Plan (LCAP) is designed to improve student achievement, support the whole child socially and emotionally, and involve stakeholders to ensure all WCCUSD students are college and career-ready, able to make life choices that have successful, productive outcomes.

Improve Student Achievement: Provide a clear, well-resourced and rigorous student achievement program that addresses the full range of student needs and results in all students being prepared for a successful life.

Support the Whole Child Socially and Emotionally: For students to achieve at high academic levels, schools, families, and communities must focus on the child's social, emotional, physical and behavioral health, as well as the acquisition of academic skills.

Involve All Stakeholders: Engage the community in a process that provides for open, transparent, and inclusive participation of community stakeholders in WCCUSD planning.

Ensure All WCCUSD Students Are College and Career-Ready: Students can demonstrate independence, build strong content knowledge, respond to the varying demands of audience, task, purpose, and discipline, comprehend as well as critique, value evidence, use technology and digital media strategically and capably, and understand other perspectives and cultures.

Through data metrics and analysis, the LCAP also addresses the State's Priority Areas: Student Achievement, Student Engagement, Other Critical Student Outcomes, School Climate, Parental Involvement, Basic Services, Implementation of Common Core State Standards, and Course Access.

We are transitioning our school's SPSA to becoming a true companion document to the district LCAP so that it focuses on programs, activities and actions which are designed to continually address and support the district LCAP goals.

As we go deeper into this work, we will continue to connect these two critical plans, driving the academic needle forward for WCCUSD students.

Please read on to learn about Valley View Elementary School's specific SPSA plan of action for the 2017-18 school year.

Theory of Action

Valley View Elementary School
Theory of Action
2017-18

If we deepen the implementation of quality learning, teaching and leadership practices in our classrooms and school by using iXL (Math and ELA), Teacher's College Writing Program, Renaissance Learning, Accelerated Reader, providing Professional Development, time for Peer Observations/Reflections, focus on reading (Reading Intervention teacher), we will see student achievement grow for all students throughout Valley View.

If we engage in collaborative PLC/ILT structures dedicated to inquiry, common assessments and examination of student work and teacher practice by providing extended collaboration time for teachers, release days to observe other's instruction, Data Driven Inquiry Cycles and Data Driven Instruction, Professional Development around ELD and Writing we will build a culture of learning, collaboration and constant adaptation that supports student achievement throughout Valley View.

If we create powerful school culture predicated on positivity, trust, inclusion, safety and communication by providing Music (Oakland Youth Chorus, SFO ARIA program), Playworks, Growth Mindset education (Brainology/GEMS), Mindfulness, Instructional Aide for student support, Family Nights, Community events, with the support of our Valley View Parents' Club we will see students and parents engaged in student learning, increased attendance, active/involved parents, effective teachers, and empathetic students.

SPSA Stakeholder Involvement

The School Site Council (SSC) works effectively with its stakeholders to complete the variety of tasks involved in developing, implementing, and monitoring the effectiveness of the Single Plan for Student Achievement (SPSA).

As the lead group, the SSC agrees to the following procedures for completing all work involving the SPSA:

Choose one task management option for each step				
	Task	SSC Actively Involved in Task	or	Task Delegated to
Step 1	Analyze local assessment data	Process:	or	Process: ILT - Teachers review and use the data to determine the sites academic focus. This is shared with staff and the SSC.
Step 2	Gather input from (check all that apply) <input checked="" type="checkbox"/> ELAC <input checked="" type="checkbox"/> Others ILT, teachers	Process: SSC will review data and make recommendations for our English Learners.	or	Process:
Step 3	SPSA strategies development	Process:	or	Process: ILT drafts strategies for SPSA, staff reviews and revises strategies, SSC reviews draft of SPSA, provides input, and approves plan.
Step 4	Budget development	Process: SSC looks at the budget and the strategies from the ILT. Looking at past expenses and data, determines where the money should be spent. The budget is presented to the staff, discussed and approved.	or	Process:
Step 5	Finalize and submit SPSA for School Board Approval	Date:		
Step 6	SPSA monitoring	Process:	or	Process: ILT compiles data for monitoring, determines effectiveness of SPSA strategies and adjusts plan as appropriate. Staff reviews and provides input. SSC reviews, provides input and approves plan as appropriate.

System-wide Barriers

The following system-wide barriers have impacted our ability to meet our academic goals. Check all that apply and provide brief description of issue(s) and where applicable any site determined strategy for overcoming the barrier(s).

Barrier Description	Strategy for Overcoming Barrier
X Staffing: Lower FTE is a barrier to growing VV. Parents work hard to help bring students to VV so we can prevent combination classes and open our doors to families who want their students to be educated in this enviroment.	*
X Facilities maintenance: Mobile Modular is not attentive to fixing issues on our portable site. The paint on the ramps chips easily.	X* District staff is very attentive, especially when safety is involved.
Facility capacity (space for classrooms/programs):	*
Safety:	*
Materials availability:	*
X Technology: Tablets continue to be a problem in that they don't work or take several minutes for the teacher to figure out what is wrong. They update at inappropriate times (trying to take the SBAC). Some students must go through several tablets until they find one that works. There is not staff to make sure the tablets in the office for exchanges are turned on and updated regularly. They often cannot find a server.	X* IT is working hard to react quickly when there is a problem. However, this doesn't help the teacher in the moment.
Fiscal Support:	*
Compliance Support:	*
Curriculum and Instruction Support:	*
Other:	*

* A check in the box indicates that completion of this section requires additional central administrative department support.

Agreements

The following critical compliance items are in place throughout WCCUSD:

- **Highly Qualified Teachers:** All teachers and paraprofessional involved in our academic programs will meet NCLB's highly qualified requirements. Our site coordinates with the WCCUSD Human Resources Department to ensure compliance with this item.
- **Strategies to attract and retain high quality teachers:** Our site acknowledges the importance of attracting and retaining high quality instructional staff. Our site coordinates with the WCCUSD Human Resources Department to develop programs and strategies to ensure high quality instruction staff want to come to and remain at our site.
- **Learning Center Collaborative Model:** Each WCCUSD school that runs a collaborative model provides a seamless approach to integrating personnel, resources, and teaching strategies to serve at-risk special and general education students. Special education teachers may work with unidentified students and regular education teachers may work with identified students (as long as they are qualified to meet the goals on the students' I.E.P.s).
- **Staff development,** selected strategies to implement or continue, and materials used are focused on meeting the needs of at-risk and general education students. This information is detailed in the SPSA. Any funds spent to support the model are also outlined in the SPSA. Finally, staff is consistently monitoring and evaluating the effectiveness of the collaborative model so that changes can be made where needed.
- **Early Learning:** Develop plans to assist preschool students through the transition from early childhood programs to local elementary school programs
- **Schoolwide Plans and Homeless Children and Youth:** In accordance with McKinney Vento Federal Homeless Assistance Law, the following actions are taken:
 - Flyers are posted in the front office stating the rights of homeless children and services available. These flyers are made readily available to homeless families.
 - Staff is trained before the start of each academic year on how to enroll and identify homeless students by the district's homeless liaison.
 - Teachers receive yearly training on how to identify warning signs which may indicate homelessness and sensitivity training on the special needs of homeless children and youth.
 - Parents without homes are included in outreach efforts by parent involvement outreach workers for inclusion in school site councils.
