### School Site Council (SSC) Recommendations and Assurances

The school site council recommends this school plan and proposed expenditures to the district governing board for approval, and assures the board of the following:

- 1. The school site council is correctly constituted, and was formed in accordance with district governing board policy and state law.
- 2. The school site council reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the school plan requiring board approval.
- 3. The school site council sought and considered all recommendations from the following groups or committees before adopting this plan:

### Instructional Leadership Team, School Site Council

- 4. The school site council reviewed the content requirements for school plans of programs included in this Single Plan for Student Achievement and believes all such content requirements have been met, including those found in district governing board policies and in the Local Control Accountability Plan.
- 5. This school plan is based on a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.
- 6. This school plan was adopted by the school site council on: May 9, 2018
- 7. The School Site Council will monitor the implementation and effectiveness of strategies in the plan at least twice during the 2018-2019 school year, using the WCCUSD monitoring process.

#### **Executive Summary**

The Single Plan for Student Achievement (SPSA) has traditionally served as a vehicle for communicating information about the school's vision and initiatives to improve academic achievement, as well as describe how supplemental categorical funds are used to support these efforts. WCCUSD's new district Local Control Accountability Plan (LCAP) is designed to improve student achievement, support the whole child socially and emotionally, and involve stakeholders to ensure all WCCUSD students are college and career-ready, able to make life choices that have successful, productive outcomes.

|                   | Goal 1: Improve Student Achievement  Goal 2: Improve Instructional Practice  Goal 3: Increase Parent and Community Engagement and Involvement  Goal 4: Improve Student Engagement and School Climate Outcomes  Goal 5: Provide Basic Services to All Students  |
|-------------------|--|
| -                 | Through data metrics and analysis, the LCAP also addresses the State's Priority Areas:  Providing all students with access to fully credentialed teachers in their subject areas, as well as instructional materials that align with state standards, and safe, properly maintained school facilities.   |
| Implementation of | Ensuring school programs and services enable all students, including English learners, to access California's academic content and performance standards, including Common Core Standards for English Language Arts and Math, Next Generation Science Standards, and English Language Development Standards.                                   |
|                   | Efforts by the school district and schools to seek input from all parents, and to engage parents in decision-making, as well as promoting parent participation in programs that meet the needs of their students and all students.   |
|                   | Improving achievement and outcomes for all students, as measured in multiple ways, such as test scores, English proficiency and college and career preparedness.   |
| · ·               | Providing students with engaging programs and course work that keeps them in school, as measured in part by attendance rates, dropout rates and graduation rates.  |
|                   | Factors both inside and outside the classroom that impact student success such as health, safety, student discipline, and school connectedness, as measured in part by suspension and expulsion rates, and surveys of students, teachers, and parents.   |
|                   | Ensuring all students have access to a broad course of study in all required subject areas, including math, social science, science, visual and performing arts, health, physical education, career and technical education, and others, that prepares them for college and careers, regardless of what school they attend or where they live. |
| Priority 8        | Measuring other important indicators of student performance in all required areas of study.  |

We are transitioning our school's SPSA to becoming a true companion document to the district LCAP so that it focuses on programs, activities, and actions which are designed to continually address and support the district LCAP goals. As we go deeper into this work, we will continue to connect these two critical plans, driving the academic needle forward for WCCUSD students. Please read on to learn about our specific SPSA plan of action for the 2018-19 school year.

#### Agreements

The following critical compliance items are in place throughout WCCUSD:

**Highly Qualified Teachers:** All teachers and paraprofessionals involved in our academic programs will be highly qualified to teach students in their assigned area of work. Our site coordinates with the WCCUSD Human Resources Department to ensure qualified staff have been assigned to our classrooms.

**Strategies to attract and retain high quality teachers:** Our site acknowledges the importance of attracting and retaining high quality instructional staff. Our site coordinates with the WCCUSD Human Resources Department to develop programs and strategies to ensure high quality instruction staff want to come to and remain at our site.

**Learning Center Collaborative Model:** Each WCCUSD school that runs a collaborative model provides a seamless approach to integrating personnel, resources, and teaching strategies to serve at-risk special and general education students. Special education teachers may work with unidentified students and regular education teachers may work with identified students (as long as they are qualified to meet the goals on the students' I.E.P.s).

**Professional Development:** Staff development, selected strategies to implement or continue, and materials used are focused on meeting the needs of at-risk and general education students. This information is detailed in the SPSA. Any funds spent to support the model are also outlined in the SPSA. Finally, staff is consistently monitoring and evaluating the effectiveness of the collaborative model so that changes can be made where needed.

**Early Learning:** Develop plans to assist preschool students through the transition from early childhood programs to local elementary school programs.

**Schoolwide Plans and Homeless Children and Youth:** In accordance with McKinney Vento Federal Homeless Assistance Law, the following actions are taken:

- Flyers are posted in the front office stating the rights of homeless children and services available. These flyers are made readily available to homeless families.
- Staff is trained before the start of each academic year on how to enroll and identify homeless students by the district's homeless
- Teachers receive yearly training on how to identify warning signs which may indicate homelessness and sensitivity training on the special needs of homeless children and youth.
- Parents without homes are included in outreach efforts by parent involvement outreach workers for inclusion in school site councils.
