Data Focus

Students in Charter Schools. We are seeing the largest number of charter students in grade 7. There are many implications about this data including the state of our middle schools, implications to the district finances and the need to investigate K-8 school models so parents can keep their kids in our schools, especially those they trust and support.

| Grade Level: | TK | K | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | Total |
|--------------|----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-------|
| 2016-2017 | 23 | 309 | 279 | 297 | 263 | 286 | 245 | 375 | 555 | 402 | 384 | 371 | 285 | 253 | 4327 |
