Step 1:

Take a Simple Circuit template.

SIMPLE CIRCUIT TEMPLATE

+

−

← use one continuous strip of foil

Battery

leave gap here between foil pieces for the LED

−

LED
tape down the foil first and place the LED on top

+

← use another continuous strip of foil

Fab Lab Richmond 02/28/16
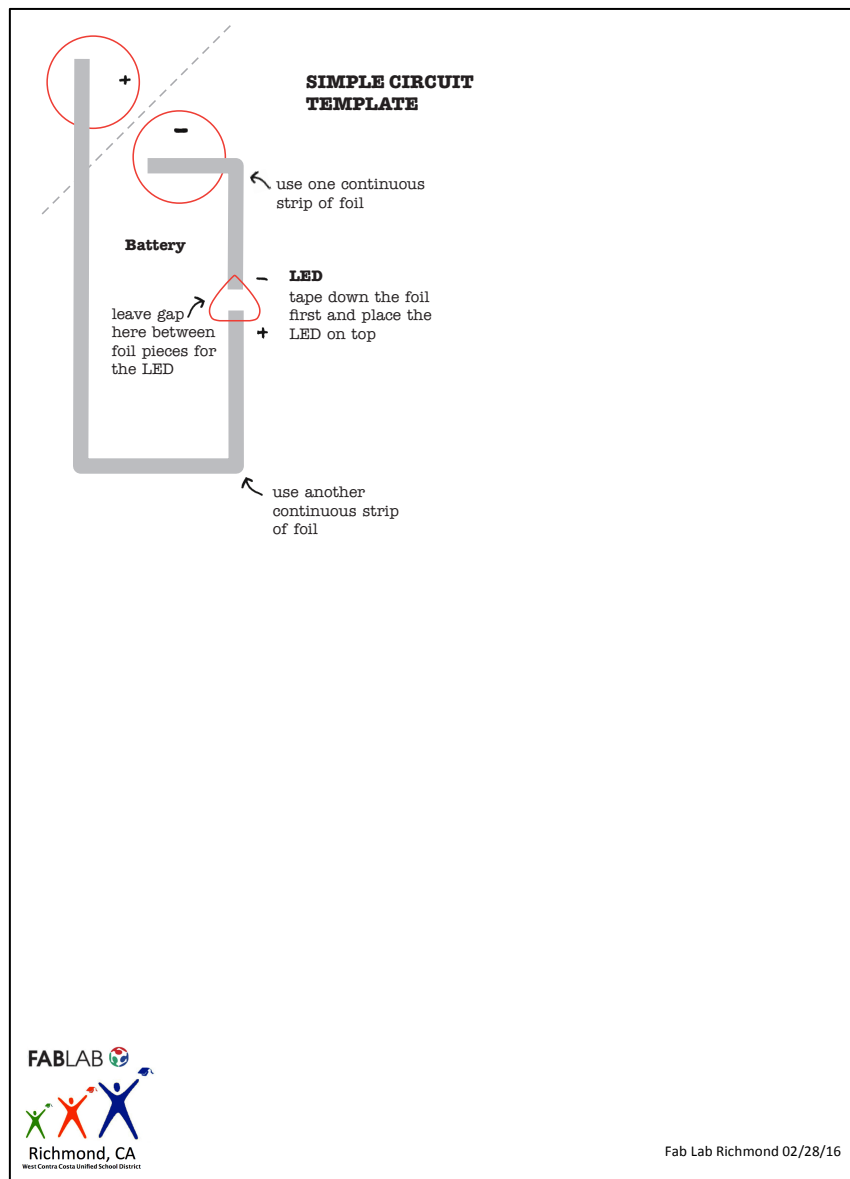

Step 2:

Watch the Simple Circuit Video for instructions.
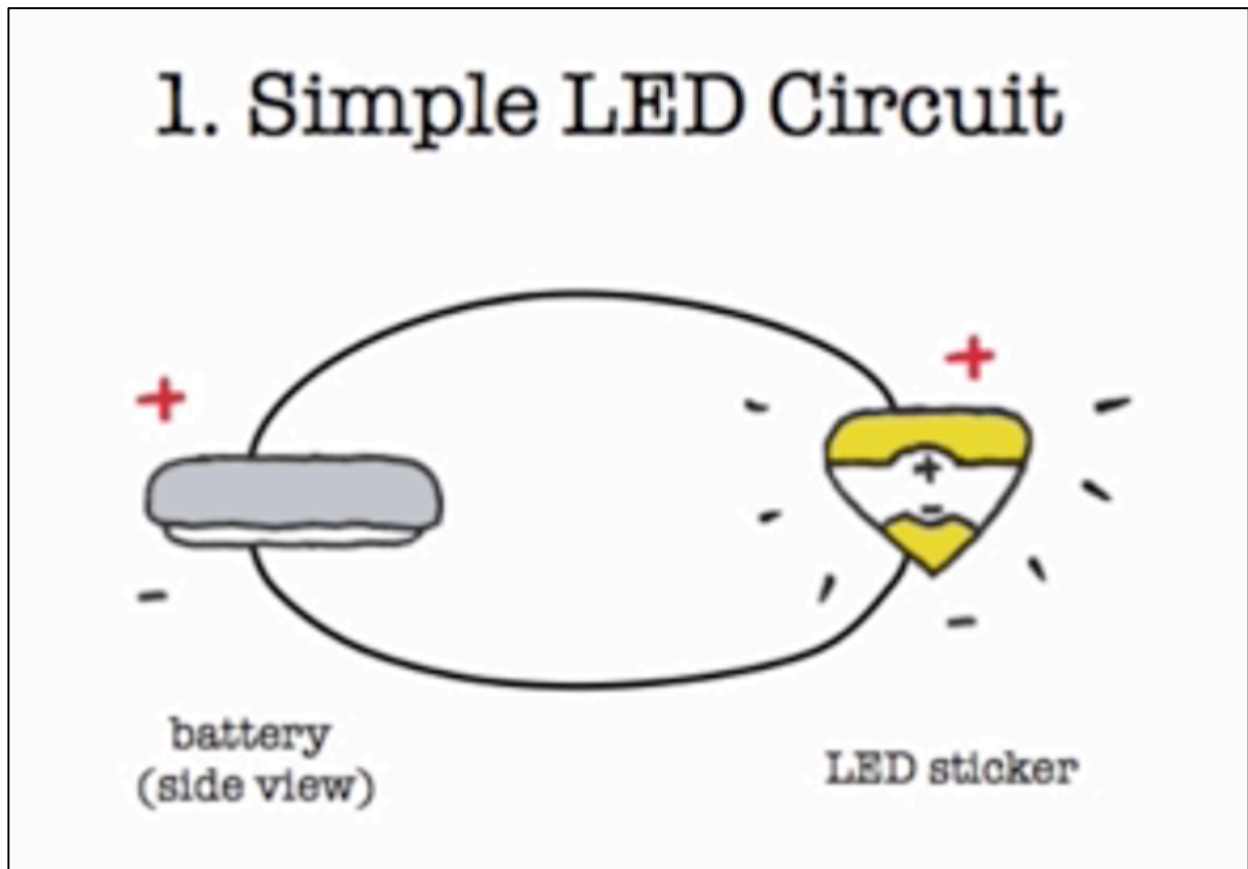

Step 3:

Make your circuit, fold the paper over, and decorate the outside where the lights show through!
