Chart in Thousands

# Structural Deficit

- Defined as having ongoing programs and financial commitments for a given year that exceed that particular year's revenue
- Ending Fund Balance or Special Reserve Funds can be used to address the deficit

# Structural Deficit

- The Board needs to be aware of the use of one-time funds and prepare plans for reducing commitments as one-time funds are depleted
- 2015-16 through 2017-18, the District shows revenue growth due to LCFF and one-time funding that will close the deficit using the current assumptions and expense levels

# Future Funding Estimates

- There is a higher level of volatility and risk in this funding model as years progress
  - Student Demographic Changes
  - Legislative Support must continue over time
  - Economic Stability and Growth
- A decline in unduplicated count in a given year has greater impact as our funding model improves for example:
  - 6% decline = 15-16 \$1 million reduction in revenues

- When the budget is adopted comprehensive and interactive information can be shared on our website

# Work in Progress

- The coding concepts behind the graphs should be able to provide “drill down” information as we perfect the work
